# chicago housing authority

## CHICAGO HOUSING AUTHORITY

OWNER Chicago Housing Authority | LOCATION Chicago, IL | FACILITY TYPE Six 16-story apartment buildings

### PROJECT BACKGROUND

This was the largest implosion ever performed in Chicago. Six buildings, located on the city's southeast side, were imploded in a matter of seconds. The project was completed without a single incident of property damage or injury.

### SCOPE OF WORK

Designed and implemented a site-wide asbestos abatement plan

Protected surrounding structures including adjacent commuter railroad tracks, an elementary school between two of the buildings, and a high rise senior citizen building

Recycled over 30,000 cubic yards of brick and concrete
