GE HOTPOINT

OWNER Arcadis Geraghty & Miller | LOCATION Milwaukee, WI | FACILITY TYPE Appliance manufacturing facility

## PROJECT BACKGROUND

Brandenburg was contracted to perform asbestos abatement, hazardous waste removal, soil remediation and total demolition of the former 35-acre Hotpoint facility. The structures consisted of 445,000 square feet of manufacturing, 94,000 square feet of warehouse, and 54,000 square feet of power house buildings. The work was performed in preparation of the new Menard's development and large food chain retailer.

## SCOPE OF WORK

Removed all asbestos-containing material

Removed all manufacturing, warehouse, and power house buildings

Completed removal of all foundations

Processed concrete onsite and reused for backfill and grading

Removed 140-foot tall brick stack

Excavated and remediated all contaminated soil

Compacted and graded site

Completed project within 120 days
