US STEEL SOUTHWORKS

OWNER USX | LOCATION Chicago, IL | FACILITY TYPE Integrated steel mill

PROJECT BACKGROUND

Brandenburg provided selective demolition starting in 1980, until the 600-acre plant was completely closed in 1992. Between 1992 and 1996, the entire facility was demolished.

SCOPE OF WORK

Provided engineering to develop a comprehensive specification inclusive of all utility, environmental, and dismantling work to be performed

Surveyed the entire facility to assess environmental and occupational hazards

Performed sampling and analysis to determine waste classifications

Developed site specific Health and Safety Plans

Prepared necessary permits

Performed all utility disconnections and relocations

Removed, packaged, loaded, and disposed of all asbestos containing waste materials

Decontaminated facilities and equipment

Purchased, removed, and delivered all salvageable equipment

Purchased, segregated, prepared, and sold all scrap metals

Guaranteed that the specification was comprehensive and not subject to extra charges

Removed, segregated, packaged, and disposed of various waste streams

Demolished and dismantled 600-acre integrated steel mill facility
