

# Brandenburg - Paragraph Spacing

add more space above the headline to give more space below the top nav bar

all static page headlines should be green just like the services headlines...

all headlines and spacing for static, services, sub-services and projects should all be consistent in size and color

## Safety

Brandenburg is committed to providing a safe work environment for our employees and our customers. We are the first demolition contractor to successfully complete OSHA's Challenge Program and to be certified as a Star Member in OSHA's prestigious Voluntary Protection Program (VPP). Star Member designation is the highest level of recognition. Brandenburg also participates in various state safety programs such as MNSTAR (Minnesota Occupational Safety and Health Administration).

We maintain a staff of eight safety professionals with backgrounds in civil engineering, industrial hygiene, mining, manufacturing, pharmaceutical, chemical, refinery, and power generation. Our staff also includes a Certified Industrial Hygienist, Certified Safety Professional, Certified Hazardous Materials Manager, OSHA Construction Outreach Trainers, and two former OSHA compliance officers. Brandenburg personnel actively participate on the National Demolition Association's (NDA) safety committee, serving as Chairmen for more than 10 years.

Brandenburg promotes safe work practices through the use of a safety-based financial incentive program, intensive and continual worker training, and strict enforcement of the written safety program. Our safety efforts have been recognized by many of our customers including Dow, Gilbane, Turner Construction, and BP.

need to fix the Paragraph spacing in CSS...

need more padding between the paragraphs.... please make similar spacing as in bazaar CSS

# Brandenburg - Crumbtrails

[Dynamic Compaction](#) > Solo Cup - Chicago, IL

## Solo Cup - Chicago, IL

**Location:** Chicago, IL

**Scope Of Work:** Dynamic Compaction

**Project Description:**  
Successful dynamic compaction consists of dropping a specific weight at each precisely determined location on the site. Brandenburg utilizes this process to ensure accurate conformity to each dynamic compaction specification.

add more space below the crumbtrail and the header...

can you always make the crumbtrail links Gray in color, even if they are visited links

# Brandenburg - static page admin notes

They want the ability to add a main image to all static pages.... just like the services, and projects...

if a static page main image is uploaded... then display the image the same was as the main services images...

- and the header should go below the main image (like services, etc.)

Static Page: "Green" Demolition

Headline:  
"Green" Demolition

Page Name:  
Green Demolition

Description:  
Brandenburg has been practicing "Green" demolition techniques since the company was established over 40 years ago. Brandenburg immediately recognized the environmental, social, and economical value driven from the proper remediation, segregation, and recycling of all debris generated from demolition projects long before the recent trends.  
The U.S. Environmental Protection Agency has estimated that America generates over 135 million tons of construction and demolition debris annually; approximately 70% is demolition debris. Brandenburg

need "main image upload" functionality just like the services page

[Asbestos Abatement](#) > Containments

## Containments

Negative air containment solutions in large, irregular structures can be complex and extensive. Larger containment structures require high volume air handling equipment.

 [US Steel Power House – Chicago, IL](#)  
The single wall of a large boiler house containment extends from the floor to the roof of the building.

 [Kodak Plant – Binghamton, NY](#)  
Containments are installed prior to removal of asbestos wall structures.

 [Agere Plant – Allentown, PA](#)  
Flexible air handling systems meet air circulation requirements in large containments. Suspended containment ceilings can be extensive.

### Quick Links

on the Services, sub-services and project pages that look like above...

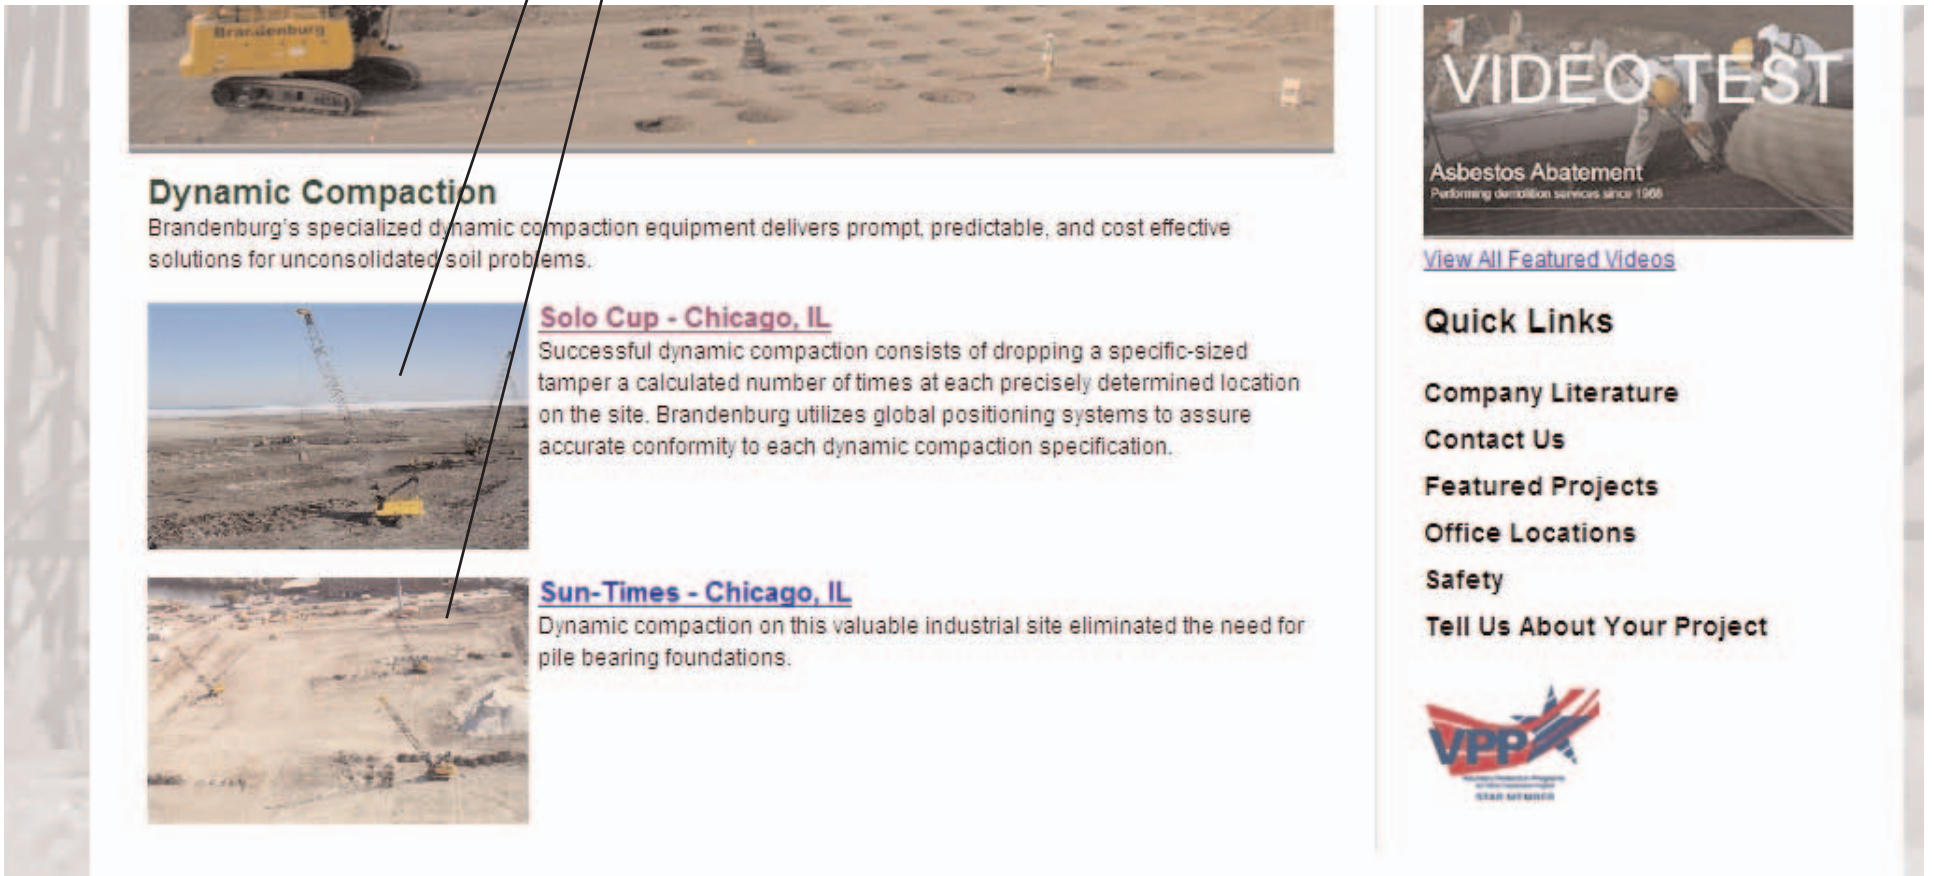

we need to make a few changes to the styles applied to the links

- Make all the links Green (same Green we use throughout the site)
- no underline
- underline on hover
- keep green at all times even if the link has been visited.

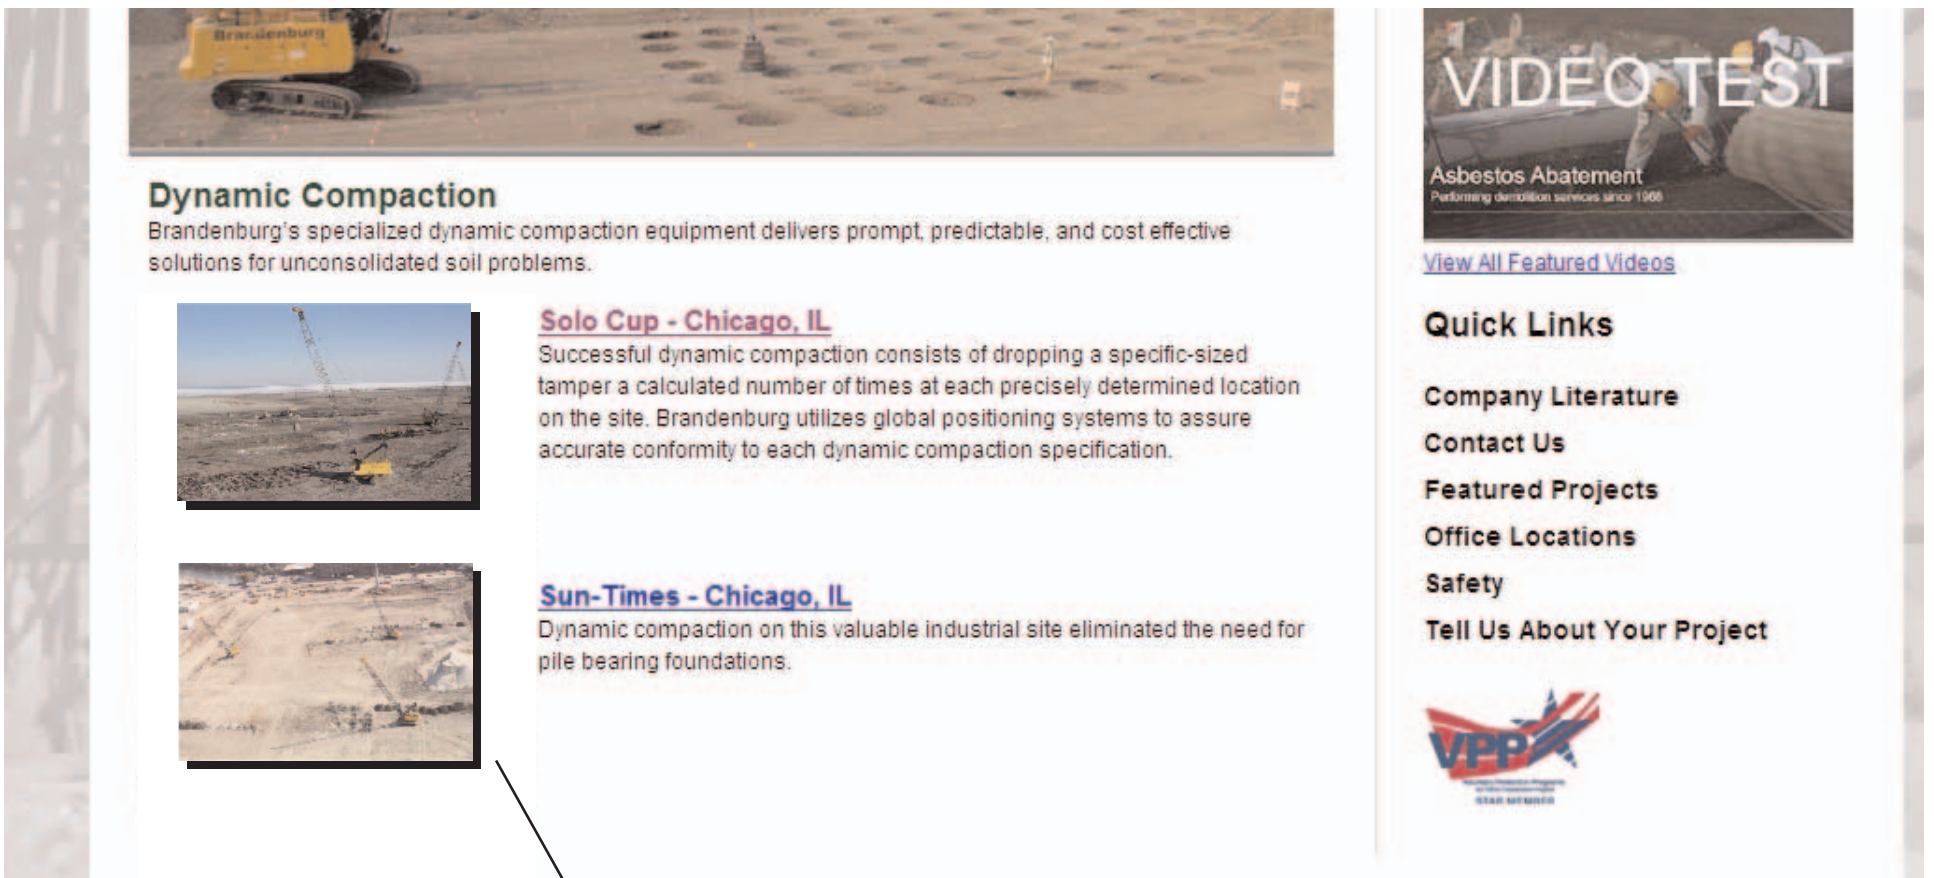

# Brandenburg - thumbnail dropshadow and size

when displaying the thumbnails on these types of pages (services, sub-service and projects)

we want to make the thumbnail image smaller..... as well as dynamically add a dropshadow to the images if possible.....?

below is a screen shot of what the thumbnails should look like....

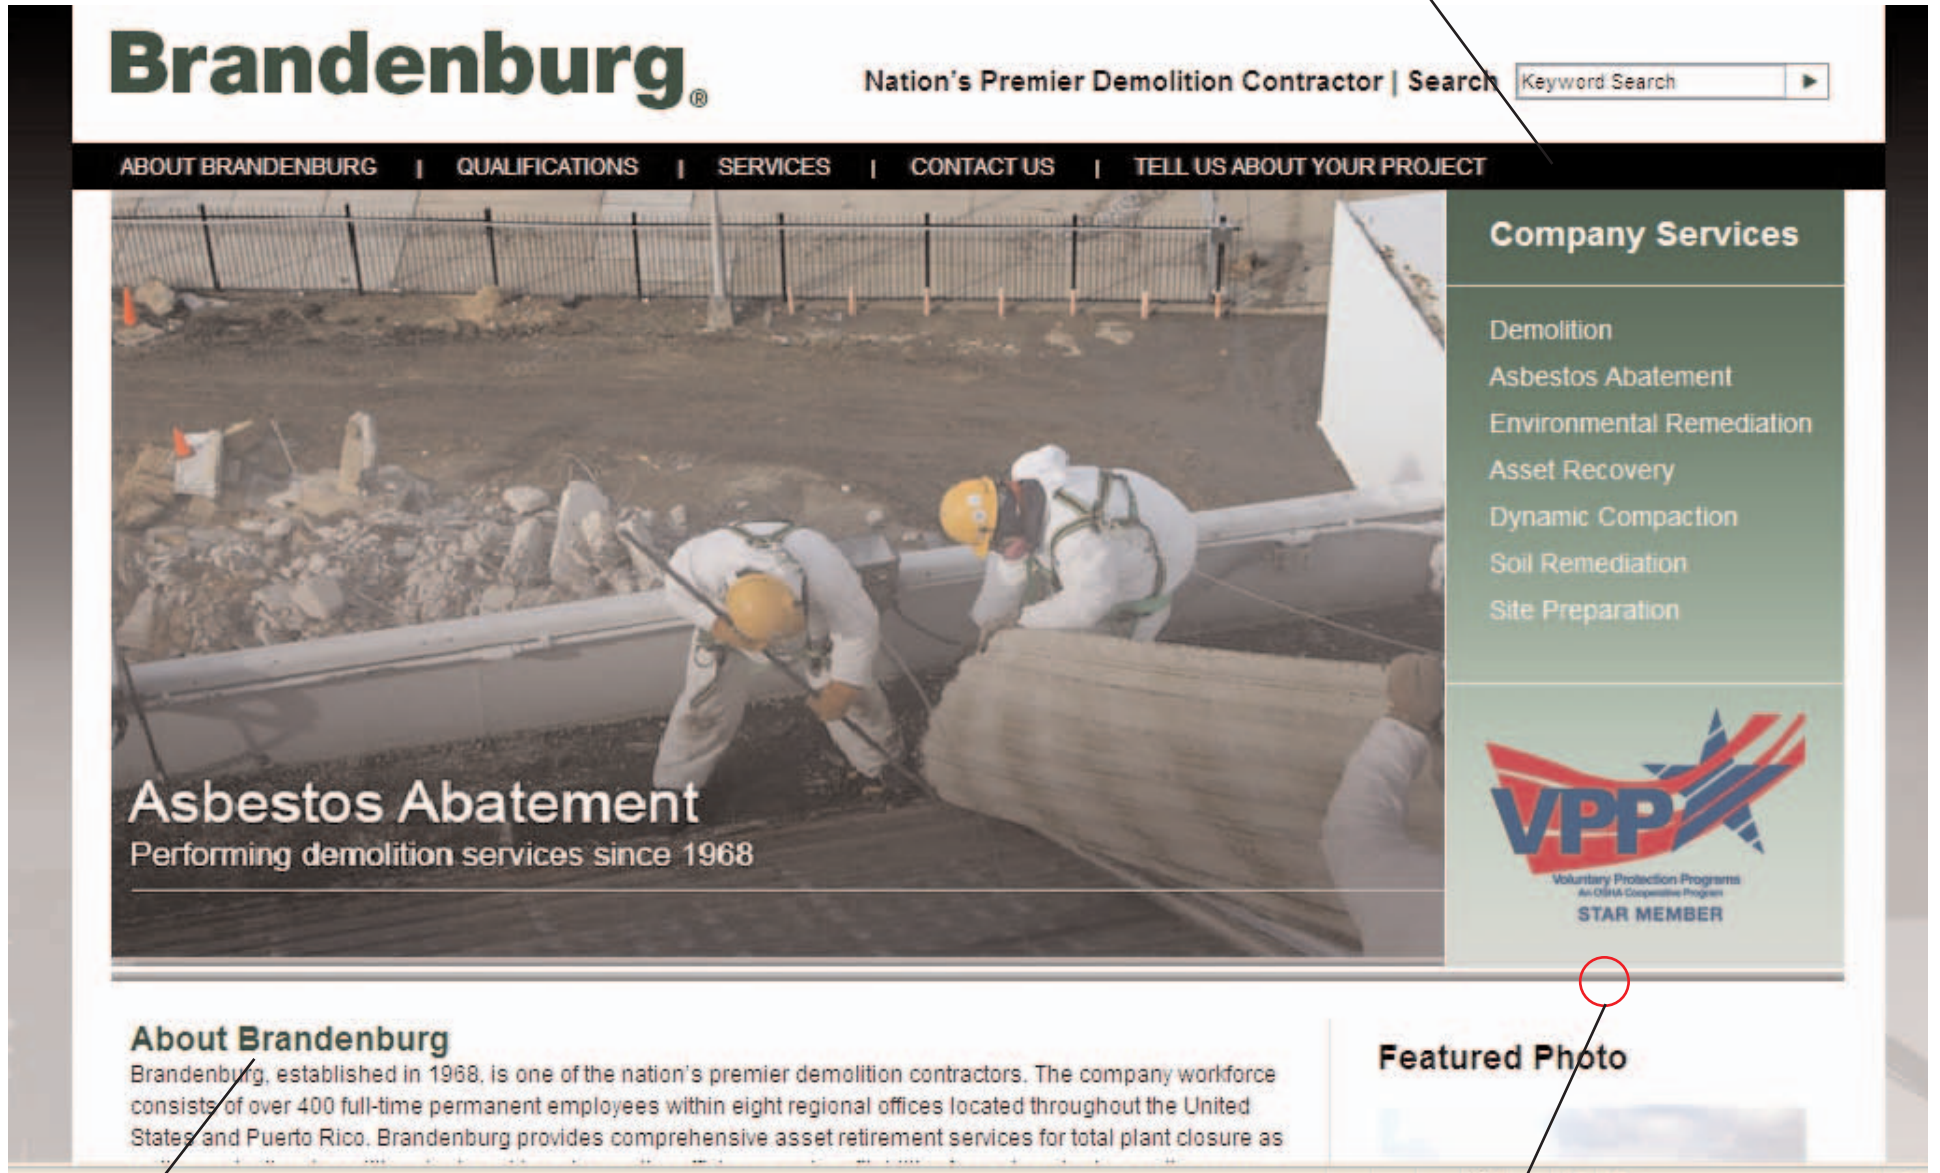

make images smaller in size and add a drop shadow off to the right behind each picture...

if you need the help of a designer for the drop-shadow, please feel free to get that started

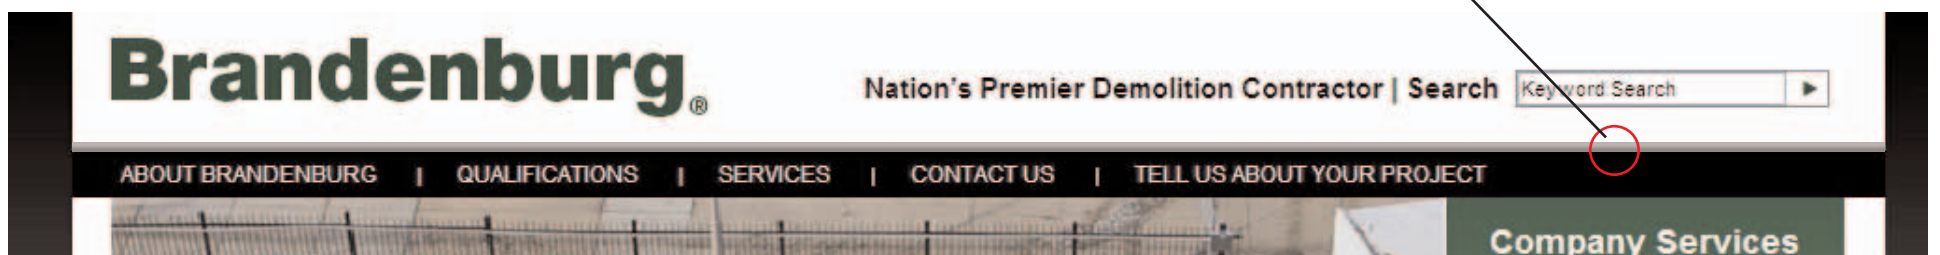

# Brandenburg - top navigation changes..

use #333333 instead of solid black in the top bar

same consistent header treatment as all other pages

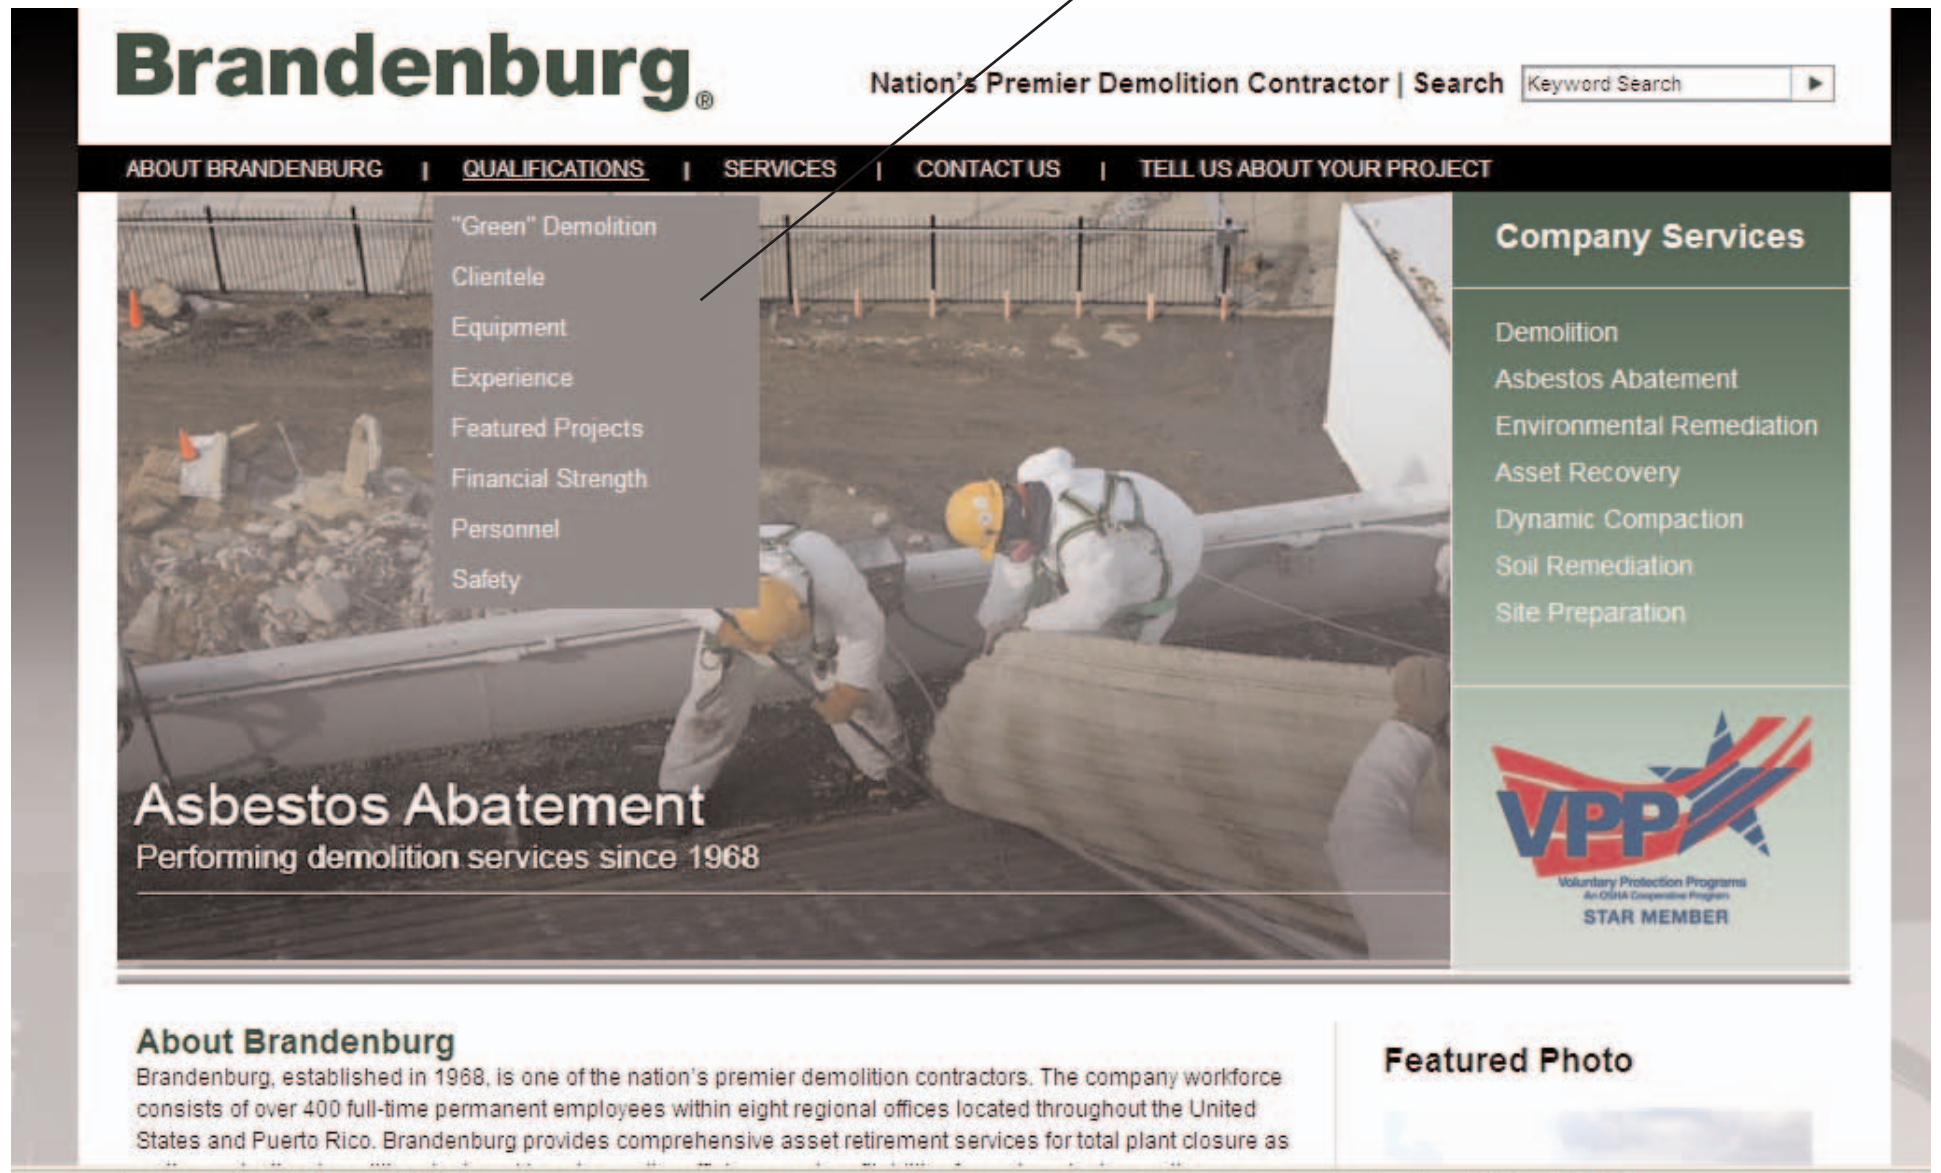

take the gray bar from this area and also use this above the #333333 bar in the top nav...

# Brandenburg - dropdown menus

not sure if it is possible, but can you make the background of the dropdown menu's slightly transparent ??

so you can see through the background a bit....  
- let me know if possible

The screenshot shows the top section of the Brandenburg website. The main header features the company logo, the tagline "Nation's Premier Demolition Contractor", and a search bar. Below this is a navigation bar with links for "ABOUT BRANDENBURG", "QUALIFICATIONS", "SERVICES", "CONTACT US", and "TELL US ABOUT YOUR PROJECT". A dropdown menu is open under "QUALIFICATIONS", listing items such as "Green" Demolition, Clientele, Equipment, Experience, Featured Projects, Financial Strength, Personnel, and Safety. The background of the dropdown menu is semi-transparent, allowing the underlying image of workers in white protective suits to be visible. To the right of the dropdown is a "Company Services" section with a list of services including Demolition, Asbestos Abatement, Environmental Remediation, Asset Recovery, Dynamic Compaction, Soil Remediation, and Site Preparation. Below this is a "VPP" logo indicating a "STAR MEMBER" status. At the bottom left, there is an "About Brandenburg" section with introductory text. At the bottom right, there is a "Featured Photo" section.

### About Brandenburg

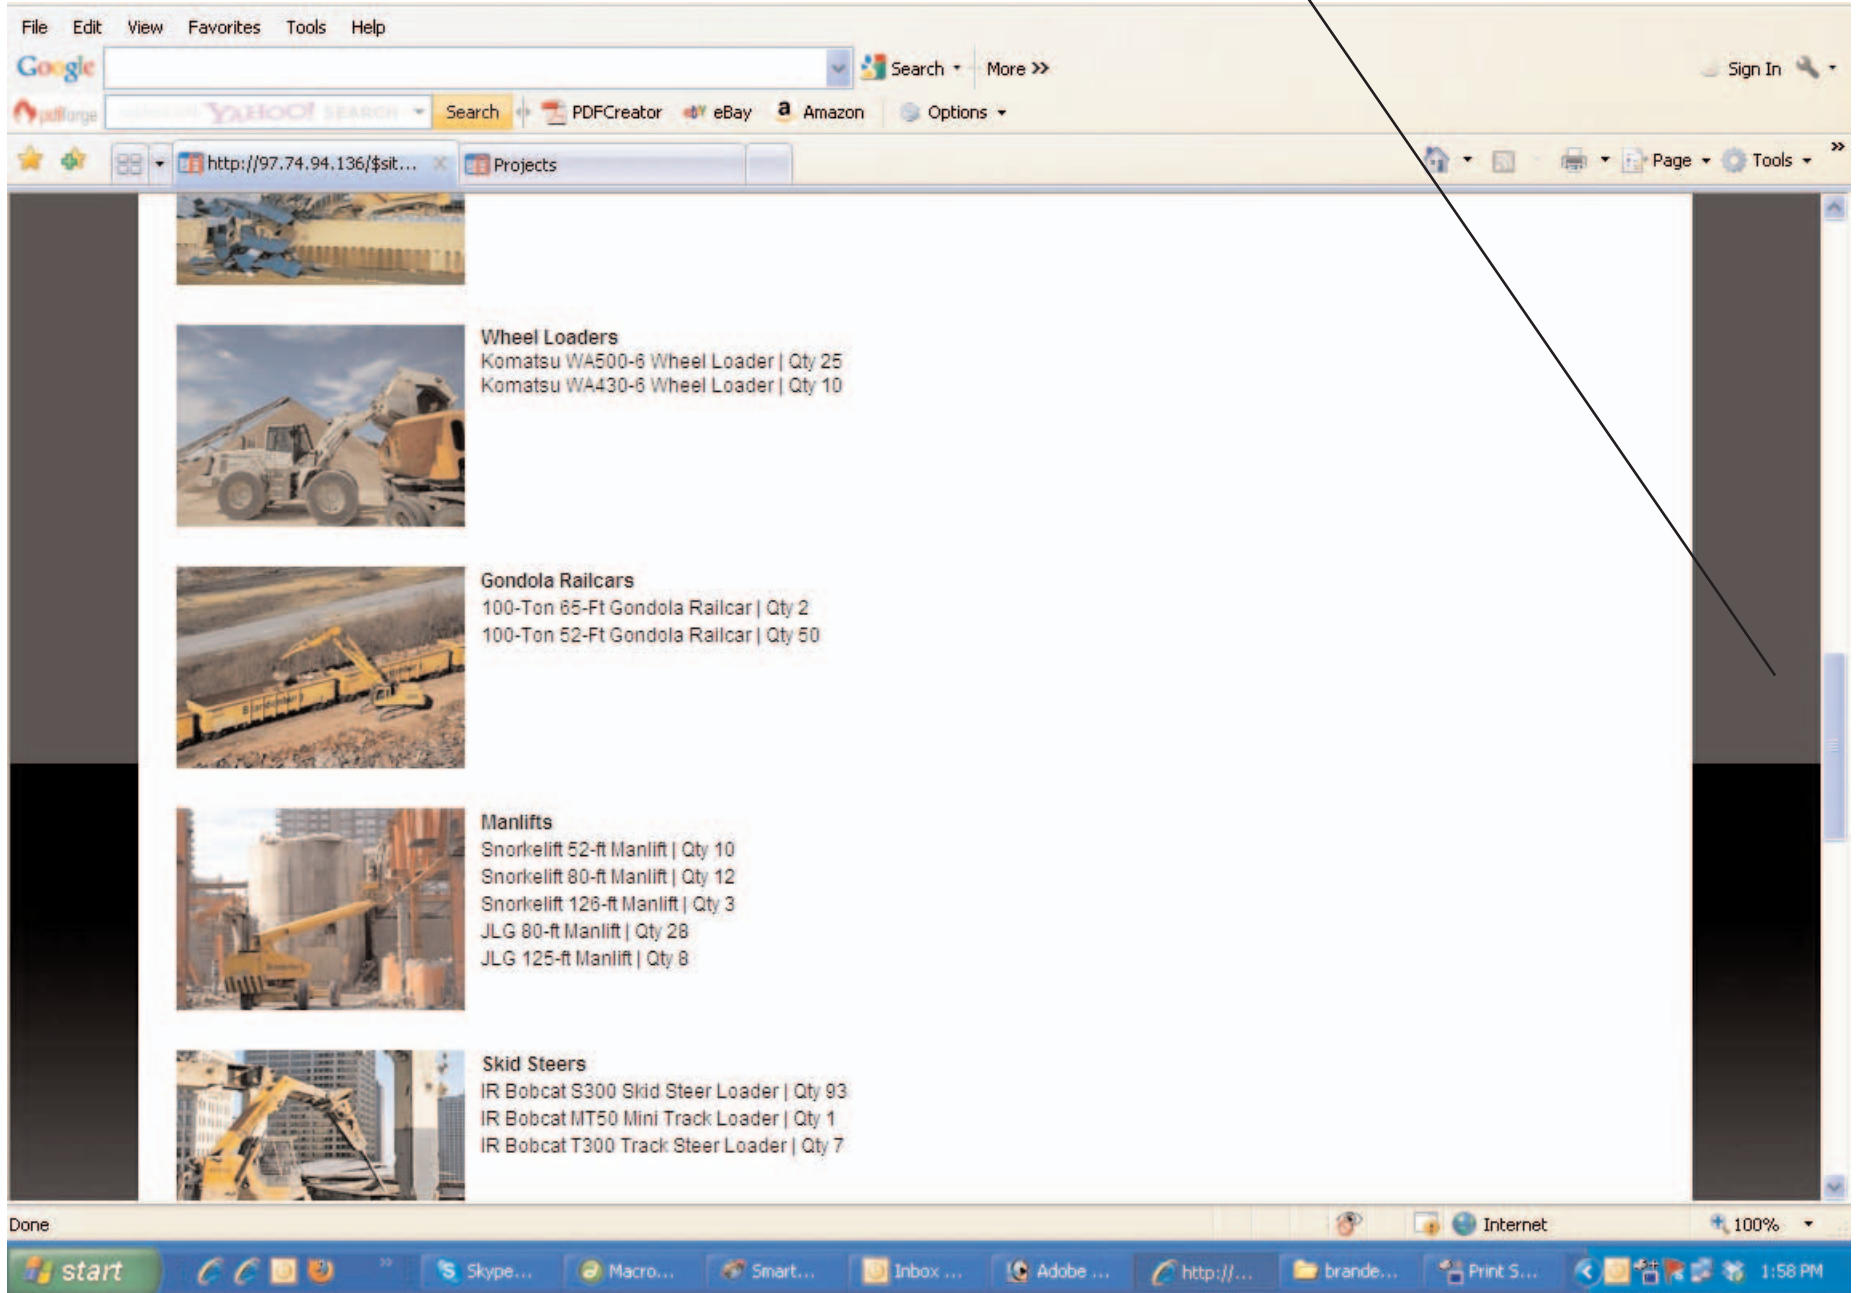

Brandenburg, established in 1968, is one of the nation's premier demolition contractors. The company workforce consists of over 400 full-time permanent employees within eight regional offices located throughout the United States and Puerto Rico. Brandenburg provides comprehensive asset retirement services for total plant closure as

### Featured Photo

# Brandenburg - background image issue on long scrolling pages

see quipment stait page for example...

- when a page is long and scrolls down far.... the background image does not start at the top...
- we need to keep the background image at the top and as you scroll down the page...
  - the background should change to solid black once you are past the height of the image

# Brandenburg - Services page - ability to ad pdf files

on the services and sub-service pages....

we need the ability to upload a pdf file (like we have on the projects page....

if a pdf is uploaded to the servie or sub-service page.... we need to display the link to the pdf file from that page

The screenshot shows a web form for editing a service page. On the left is a navigation menu with items like 'Pages', 'ed Photos', 'ed Videos', 'gmt.', 'es', 'ervices', 'ts', and 'ts'. The main form area contains a 'Description:' field with a rich text editor toolbar. Below this are two dropdown menus: 'Sub Service:' and 'Select Project:' (with 'Choose Project' selected), each with an 'Add' button. The 'SEO Page Management:' section includes 'Title:', 'Meta Keywords:', and 'Meta Description:' text areas. In the top right corner, there is a 'Browse...' button and an 'Upload Photo' button. A diagonal line is drawn across the 'Meta Keywords' and 'Meta Description' fields. At the bottom right, there is a 'Powered by: CBS Creative Business' logo.

This is a close-up of the 'Upload PDF File:' form element. It consists of a text input field, a 'Browse...' button, and an 'Upload PDF' button.

same pdf process as we have for projects

# Brandenburg - project image rotation

when the images are uploaded for projects....

we need to have them rotate on actual page in the same order as displayed on the admin...

Internet

most of the images for projects need to follow the order as the images could be a series of pictures that need to stay in order

for example:  
a building falling to the ground....

so they want to show how the building goes down in order
