

Practicing Safety

Brandenburg®

PRACTICING SAFETY

BRANDENBURG'S PERSONNEL ARE THOROUGHLY TRAINED AND PROVIDED WITH THE NECESSARY TOOLS AND PERSONAL PROTECTIVE EQUIPMENT TO PERFORM TASKS SAFELY.

Brandenburg is committed to providing a safe work environment for our employees and our customers. Brandenburg is the first demolition contractor to successfully complete OSHA's Challenge Program and to be certified as a Star Member in OSHA's prestigious Voluntary Protection Program (VPP). Star Member designation is the highest level of recognition. Brandenburg personnel actively participate in the National Demolition Association (NDA).

Brandenburg maintains a staff of safety professionals with backgrounds in civil engineering, industrial hygiene, mining, manufacturing, pharmaceutical, chemical, refinery and power generation. Our staff includes a Certified Industrial Hygienist (CIH), Certified Safety Professionals (CSP), Graduate Safety Practitioners (GSP), Certified Health & Safety Technicians (CHST), Safety Trained Supervisor (STS), Certified Environmental, Safety & Health Trainer (CET), American Heart Association (AHA) Instructors, Special Government Employees (SGE), OSHA Construction Outreach Trainers and former OSHA Compliance Officers.

Brandenburg promotes safe work practices through the use of behavior-based safety programs, intensive and continual worker training and strict enforcement of written safety programs. Brandenburg has developed, and maintains, a demolition-specific safety manual which is regularly assessed and updated as appropriate, documenting our safety standards. Policies and procedures in this manual provide guidelines that employees use from the initial stages of each project through project completion.

Brandenburg shares the same safety culture as our customers. We encourage employees to become involved in day-to-day safety and have them take ownership in its success. Each Brandenburg employee possesses Stop Work Authority, which gives employees the right to stop any activity, without repercussions, if they have a safety concern. We have also implemented an employee Workplace Observation Card program whereby employees report safe and unsafe behaviors observed throughout the day. In addition, Employee Safety Perception Surveys are used to provide important feedback from our workforce. Our safety program has been highly effective in supporting open channels of communication between our field workforce and all levels of management. Brandenburg's safety efforts have been recognized by many of our customers including BP, Dow Chemical, Gilbane and Turner Construction.

Brandenburg is the first demolition contractor to be certified as a Star Member in OSHA's prestigious Voluntary Protection Program (VPP).
